

DESCRIPTION

The VX-300SV is a 3 wires end of line module, speaker line failure can be detected with greater accuracy when a VX-300SV module specifically designed for 100V speaker line is connected between the speaker line end and the control input terminal of the VX-300SM.

SPECIFICATIONS

Speaker line input	19-33V DC , screw connector 2P
Control output	No-voltage make contact electrical contact output , control current: 10 mA , withstand voltage: 28V DC screw connector 1P
Speaker line	Max.cable length: 500 m (546.81 yd) , Max. load : 100W * applicable only for 100 V speaker line.
Operating Temperature	-5°C to + 45°C(23F to 113F)
Operating Humidity	90% RH or less (no condensation)
Dimensions	137(W)X79(H)X57(D)mm(5.39"X 3.11"X2.24")
Weight	140g(0.30 lb)
